The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

An Epidemic of Blood in Los Angeles. Los Angeles, March 4th,-An epidemic of blood seems to have started in Sonoratown, the Spanish quarter of the city. Last night Marcos Medina, an ex State Prison convict, in a dispute in a saloon, drew a knife and cut an Indian across the abdomen, ir-flicting a severe wound. The would-be murderer made his escape. This afternoon Medina reappeared at the same place, and in a difficulty with a Mexican cut him across the throat with a knife, almost severing the windpipe. He is now in jail. This morning, in the same quarter of the city, Manuel Merando, in a dispute with another Mexican, drew a knife, and when in the act of striking, a bystander interfered and received the blow on the arm, almost cutting it off. Merando is also said to be a State Prison bird, and is now in jail.

Details of the Death of Alex. H. Stephens

ATLANTA, March 4th.—Stephens' death occurred at half-past 3. About 2 o'clock in the morning it was evident that he was much weaker, and that the crisis was approaching. The doctors placed a strong mustard plaster on his wrist, and let it remain twenty min-utes. When it was removed there was not the slightest sign of inflammation, showing that there was very little vitality left. At half past 2 his extremities became cold and plainly perceptible earlier in the night, had ceased entirely. There was no more heavy breathing, and not the slightest gasping. At a quarter past 3 the family were called ir, and after breathing almost imperceptibly a few moments he died without the slightest tre-

A husky rattle in the throat, that had been plainly percentible earlier in the night had been plainly percentible earlier in the night had difficult to explain wherein its especial beauty lies. No doubt the skill of the artist who can note so accurately and reproduce the exact features and details in the appearance of a hand excites marvel and mor. The news of his death created the pro-foundest sensation, as it was not known that he was so near death's door. To-day his remains lay in state in the executive mansion, and were viewed by 20 000 people. In the afternoon a meet by 20,000 people. Disinfection by Hot Air.—Koch and Wolfingel, in experiments made to determine the disinfecting power of hot air, have been led to the following conclusions: 1. Bacteria are destroyed by being exposed to a temperature of a little over 100° C. for an hour and a half. 2. Spores of brewers would require for their destruction an exposure for the same time at 110°—115° C. 3. Bacilli are killed only by three hours' took are seriously ill.

ANNUAL MEETING OF KRIGHTS TEM-PLAR

The annual meeting of Sacramento Commandery, No. 2, Knights Templar, was held at their asylum on Saturday evening, E. B. willis, Eminent Commander, presiding. The plaint was made against the woman by Tompkins until over a month after the alleged robattendance was the largest in the history of the Commandery, the increased interest being due to some extent to the propositions being due to some extent to the propositions being the court said he believed it to be but due to some extent to the preparations being made for the triennial conclave of the Grand

before the Court said he believed it to be cut a conspiracy to ruin officer Eldred.

The regular election for police officers will made for that great event made reports of their progress. The Commandery has or-dered from Pettis, of Troy, N. Y, a hand-some and costly banner; elegant gold badges are being made at Providence, R. I., for the Sir Knights; a large hall has been engaged in San Francisco for the use of the Commandery during the Triennial Conclave; the First Ar-tillery Band (twenty pieces) has been engaged for the San Francisco trip and for all the pa. this morning. It shows that the total exarrangements for what will be one of the grandest pagents arrangements for what will be one of the Templar of Sacramento to receive the visititing Sir Knights from the other side of the Rockies in a manner which will not only be a credit to the Commandery, but to the city of which its membership comprises many of the leading citizens. The following efficers were elected for the ensuing year: Eminent Repairs to the telegraph alarm-boxes.

Commander Six Edward I was considered to First Alarm. New hose purchased. Horses purchased. Horses of engine-houses. Heapairs to engine and hose carts. Repairs to telegraph alarm-boxes. were elected for the ensuing year: Eminent Commander, Sir Edward Lyon; Generalissimo, Sir Charles M. Coglan; Chaplain-General, Sir William B. Miller; Prelate, Sir John W. Rock; Senior Warden, Sir Edwin Glover; Junior Warden, Sir T. C. Pockman; Treasurer, Sir A. A. Van Voorhies; Recorder, Sir A. A. Redington. to draw the sprinkling carts; and the propopolice patrol the streets all night long for the vages that are paid in employments where no risk is taken, and no responsibility re-posed, in the same breath opposes the sustaining of the Free Library, one of the best institutions we have. The same party calls stream so the proposed vote to pay \$30,000 toward a new Pavilion, remarking that that will raise the tax levy from \$1 60 to \$1 90. The kind of schoolthers that man would employ would teach that kind of arithmetic. Did the man who wrote that letter to the Bee really suppose that anybody would accept his figures? The \$30,000 will require a tax levy of less than 3 cents. Evidently the writer of that communication went to a "twenty-cent schoolmarm." I want my children to be taught by the best teachers to be had, and as a tax-payer I demand that sufficient be paid to secure competent teachers. Competency is what commands wages. It is not a question of muscle, or of hod carrying. Mr. Editor, I look upon these attacks upon the Free Library and the schools as villainous and inistic, and made for a bad purpose. Here are our schools so crowded that the reachers cannot do the scholars justice, and get a man is found with influence enough to secure the publication of a letter demanding that part of our teachers be dismissed, and the remaining half be required to teach double the number of pupils at half the wagges they now receive. Why is it, it, that these men who are so anxious to retrench cannot find some other things to attack except the schools, the Library and the Fire Department? We who have to labor at the block must pay a license for the privilege, block must pay a license for the privilege, and block must pay a license for the privilege, and the fire working in the jail. Last evening, about 7:30 o'clock, local officer Karcher saw the man walking on K street, at the corner of Sixth, areast, and severe the schools of the support of the san Jose Rormal School instead of \$60,000 for the Deaf, Dumb and Blind Asylum; \$150,000 instead of \$60,000 for the beaf, Dumb and Blind Asylum; \$150,000 instead of \$60,000 for the beaf, Dumb and Blind Asylum; \$150,000 instead of \$60,000 for the support of the San Quentin Prison.

close at hand, and the bills on the special file ought to be passed at once.

Johnson opposed the motion, and urged that the resolution was the only way out of the difficulty in which the Senate found itself. There were bills of as much importance on the general file as there were on the special file. The only way out of the difficulty was to suspend the constitutional provision and pass these bills.

Kright urged that the resolution ought to be adopted, and in that way bills would be taken up decently in order instead of atrandom, as under the present rule. The rules were being constantly suspended on motion of Senators, and the resolution simply gave each one a chance to call one bill up as

Vrooman earnestly urged the reconsideration. He hoped that the Senate would proceed with the regular order of business on the special file, and pass the important measures that had been placed thereon. He pointed out that by adhering to the rules on Friday the Senate did more good work in one day than had been done on any six days previous. All of these motions to suspend the rules simply amounted to dilatory motions and delayed legislation. If the Senate would proceed with the regular order and vote down all motiors to suspend the rules, without debate, before night every bill on the special file would be disposed of.

Helena (Aik), March 33.—The struggle with the besieging water has fairly begun in this vicinity. There was a slow and steady rise this past week, and a small increase in the past week, and a small increase in the past twenty-four hours, four inches being registered. This brings the stage of water within thirty-one inches of the maximum of last year. The examination of the levee from where it leaves the hill, one mile above the town, to Long Lake, four miles south, reveals the fact that its stability may be relied upon. Nine miles south of this place several newly-repaired breaks are regarded doubtful, but as a large force is at work on the weak pointe, it is thought they may be made secure. There is no apprehension of Helena overflowing. Coshoma county, Mississippi, opposite Helena, is a vast sea of water, and crops are necessarily greatly retarded. No serious lesses of steek are reported.

Carver Beats Bogardus Again. CHICAGO, March 31.—The second pigeon match between Captain H. Bogardus and Dr. W. F. Carver was shot at the Chicago Driving Park this afternoon. The terms were 100 birds each. Five ground traps were used, and both barrels. Eighty yards was the boundary. There was no betting at the start, but after about forty birds were shot the odds were ten to four on Carver, and the rate was unchanged throughout. The birds were tame and strong flyers. Bogardus missed two of his first three birds, and Carver led by two to three up to the eighty-fifth, when Begardus drew up to even, and they shot together to the ninetieth. Carver killed the last ten birds straight, Bogardus missing three, and Carver won by a score of eights Bogardus was three behind, with

IS FEET TO THE POUND.

Cal. Rooms, 50 cm6s and \$1 per day. Special rates by the month. Billiards, choice liquors and clgars. Hot lunch daily from 11 A. M. till 2 P. M. It is the cheapest fence made; the most durable; it is not affected by fire, wind or flood; does not cause snow-drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept from it; requires but little labor to put it up; you can draw enough at one load to fence a farm; you can fence a good-sized farm in a day; it is the greatest practical invention of the age; and has come to be the farm and railroad fence of the country.

We advise every one who wishes to purchase wire, and wants the best, to buy the CACTUS BARB, as it contains all the favorable fe tures that are required, and none of the objectionable ones. It is made only from the best annealed steel, fully warranted, either galvanized or painted; put up in spools of from 100 to 120 pounds each. Remember, it will not exceed 17 ounces per rod.

REMARKABLE!

Kansas Crrv, Mo., Sept. 20, 1882.

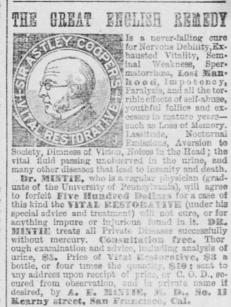

I think it a duty I owe to humanity to say what your remedy has done for me. One year ago I contracted a bad case of blood disease, and not knowing the result of such troubles, I allowed it to run on for some time, but finally applied to the best physician in this city, who treated me for six months. In that time I took over 600 pills of protoiodide of mercury, 1 grain each, and had run down in weight from 210 to 157 pounds, and was confined to my bed with Mercurial Rheumatism, scarcely able to turn myself in bed. Being a traveling man, some of the fraternity found me in this deplorable

its use. I commenced the use of it with very little faith, and in less than three weeks was able to take my place on the road. The sores and copper colored spots gradually disappeared, and te-day I have not a sore or spot on my person, and my weight is 217 pounds, being more than it ever was. I do not wish you to publish my name, but you may show this letter to any who doubt the merit of S. S. S., for I know it is a sure three transport trule. Some thirty years ago there lived in Mont-
